

Waste Management and Circular Economy

GLOBAL PRESENCE

WHAT ARE OUR ACTIVITIES?

Urban Services

Street cleaning and waste collection

Green area maintenance

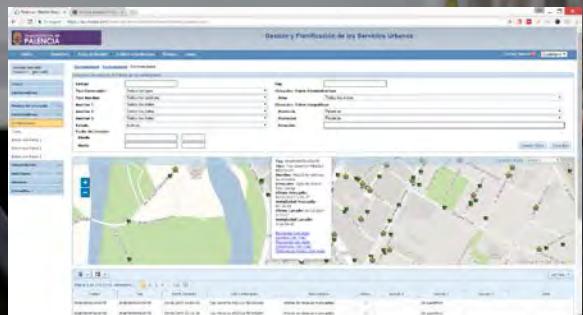

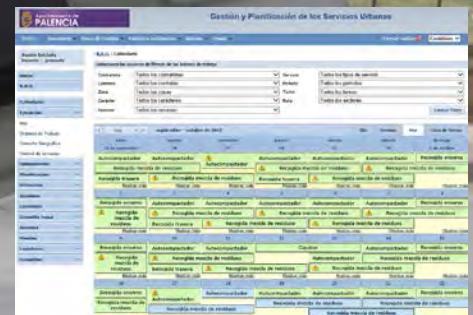

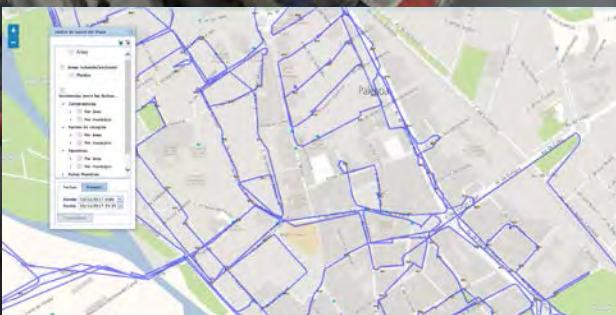

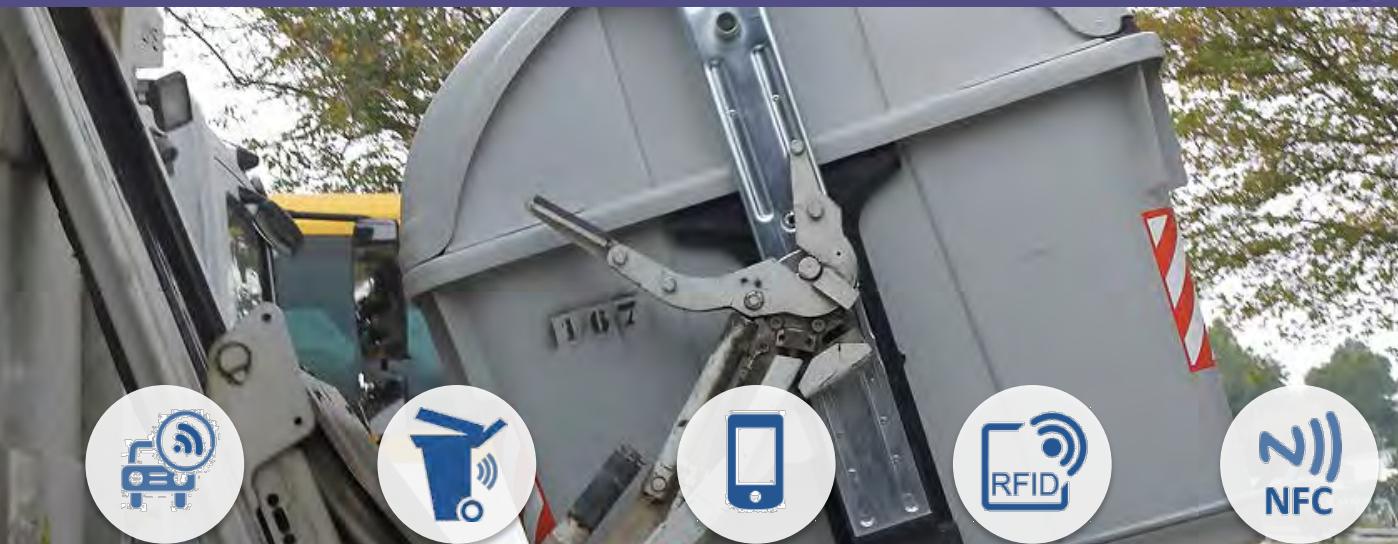

Integrated water management

Mobility solutions

Urban services innovations

A screenshot of the SMARTools software interface. It shows a map of a city area with various collection points marked. Below the map are several data entry forms for tasks like "Carga de basura" (Garbage collection) and "Entrega de basura" (Garbage delivery). The interface is in Spanish and includes dropdown menus and buttons for managing collections.A screenshot of the SMARTools software interface showing a detailed list of collection tasks. The list includes columns for task type (e.g., "Carga de basura", "Entrega de basura"), status (e.g., "En ejecución", "Finalizado", "Pendiente"), and other relevant details. The interface is in Spanish and includes a search bar at the top.

oil**

A large, circular opening of a massive industrial pipe dominates the frame, looking out onto a serene sunset over a body of water. The sky is filled with warm orange and pink hues, reflected in the calm water below. In the distance, small islands or landmasses are visible. The pipe's interior walls are rough and textured.

Is smarter invest in Waste Treatment or Waste Collection ?

Reflect on...

Is there an adequate legal framework available for CE targets?

Innovating for the city of the future
